

CAPABILITY STATEMENT

For over 3 decades, we've delivered mission-critical climate control solutions in both defense and commercial sectors. We ensure peak performance of sensitive equipment in demanding military applications and safeguard crucial technology for businesses, maximizing uptime and efficiency.

CORE COMPETENCIES

- » **Climate Control Expertise**
 - Cooling/Heating
 - Humidification/Dehumidification
 - Custom Designs
- » **Defense & Aerospace Applications**
 - MIL SPEC Systems
 - Satellite/Spacecraft Thermal Management
 - UAV Ground Support Cooling
- » **Commercial & Industrial Application**
 - Facilities Climate Control
 - Spot Cooling
 - Industrial Precision Cooling
- » **Solutions (2-10 Ton Cooling Capacity)**
 - Portable Units
 - Skid-mounted Units
 - Wall-mounted Units
 - Vehicle-mounted Units
- » **Advanced Features**
 - Micro-Electronics Compatibility
 - Redundancy (Lead/Lag)
 - Split Systems
 - Global Configurability
 - High-Performance UVGI Systems

DIFFERENTIATORS

- » Unmatched Reliability
- » Precision Engineering
- » In-House Design/Engineering
- » In-House Laboratory/Testing
- » 30 Years of Proven Performance
- » Responsive Customization
- » Innovative Designs
- » Consistent Quality Control
- » 2018 Award: "Supplier of the Year" by General Atomics (GA-ASI)

PAST PERFORMANCE

PERTINENT CODES

- » Dun & Bradstreet (DUNS)18-273-7262
- » NAICS 333415 / 333413
- » PSC 4120
- » CAGE Code 0C1U1
